

### Level 4 Parent Phone Call

Mrs. Smith, I care about your daughter Lori, and I care about her success in school.

The last two weeks have gone great, she came on time, she came prepared and she wrote a great essay.

2-2-2

I'm concerned because something has come up in the last two days. Lori is not keeping her hands to herself.

I would like you to do two things for me. Would you please tell Lori that I called. And would you please tell Lori that you would like this behavior to stop.

Thank you. Is it okay if I call you back in two days to let you know how things went? Is this a good number? Is this a good time?

#### **Positive statements to add to the conversation:**

I care about your daughter.

I care about her success in school.

If we work together, I am confident that your daughter will be successful.

I have dealt with situations like this before.
